

How do I clear the Windows Update cache?

 learn.microsoft.com/en-us/answers/questions/5599170/how-do-i-clear-the-windows-update-cache

Click your Start Button, type cmd then right click Command Prompt and choose 'Run as Administrator'

Run this command and hit Enter: **net stop wuauserv**

Leave Command prompt open

Open File Explorer, on the View ribbon, temporarily turn on 'Hidden Items'

Navigate to **C:\Windows\SoftwareDistribution\Download**

Delete the entire contents of the Download folder

Close File Explorer

In Command Prompt, run this command and hit Enter: **net start wuauserv**

When that completes, close Command Prompt and restart your PC.

Navigate to **C:\Windows\SoftwareDistribution\Download**

When that completes, close Command Prompt and restart your PC.
