

Formatting using DISKPART

 community.spiceworks.com/t/formatting-using-diskpart/1011009

Step 1: Bring up a command prompt and load DISKPART

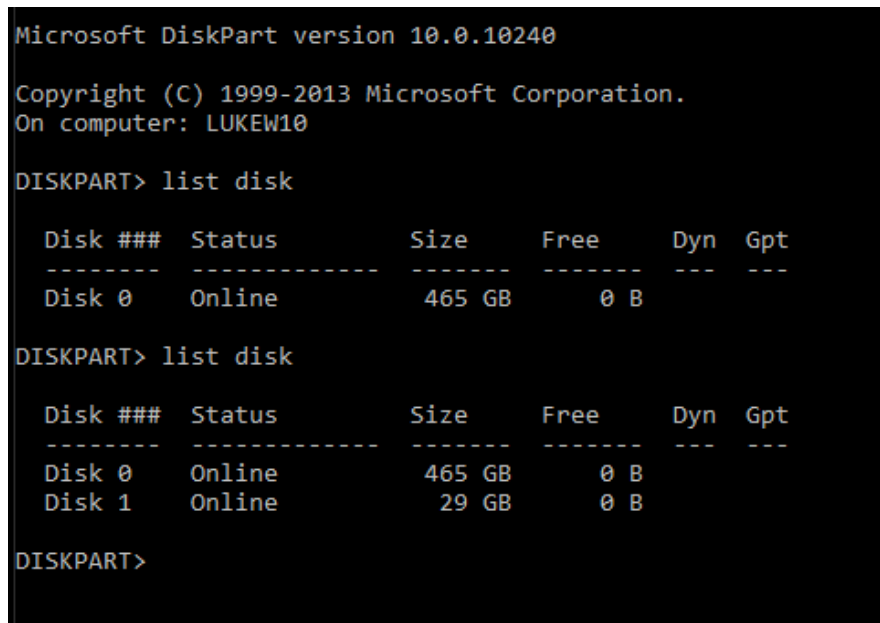

```
C:\Users\luke.murray>diskpart

Microsoft DiskPart version 10.0.10240

Copyright (C) 1999-2013 Microsoft Corporation.
On computer: LUKEW10

DISKPART>
```

Step 2: Have a look around

```
Microsoft DiskPart version 10.0.10240

Copyright (C) 1999-2013 Microsoft Corporation.
On computer: LUKEW10

DISKPART> list disk

   Disk ###    Status              Size       Free      Dyn  Gpt
   -----    -
   Disk 0      Online                465 GB         0 B

DISKPART> list disk

   Disk ###    Status              Size       Free      Dyn  Gpt
   -----    -
   Disk 0      Online                465 GB         0 B
   Disk 1      Online                 29 GB         0 B

DISKPART>
```

LIST DISK

Here you can see I've run the command twice, once before plugging in my USB, once after

Step 3: Select your disk

```
DISKPART> select disk 1

Disk 1 is now the selected disk.

DISKPART>
```

SELECT DISK

You need to tell diskpart not only what to do, but where to do it.

Using the Disk ### - select your disk

Step 4: CLEAN

```
DISKPART> clean

DiskPart succeeded in cleaning the disk.

DISKPART>
```

CLEAN

Something is wrong with this USB. I want to clear all the config off it

Step 5: VOLUMES

```
DISKPART> list volume

Volume ### Ltr Label          Fs      Type          Size      Status       Info
-----
Volume 0    D   HP Software  UDF     DVD-ROM       696 MB     Healthy
Volume 1            System Rese  NTFS    Partition     500 MB     Healthy      System
Volume 2    C           NTFS    Partition     465 GB     Healthy      Boot
Volume 3    F           Removable   0 B       Unusable

DISKPART> select volume 3

Volume 3 is the selected volume.

DISKPART>
```

LIST VOLUME

SELECT VOLUME

Found and cleaned the disk, now we want to manage the partition

Step 6: FORMAT

```
DISKPART> select volume 3  
  
Volume 3 is the selected volume.  
  
DISKPART> format FS=NTFS LABEL=32 QUICK  
  
100 percent completed  
  
DiskPart successfully formatted the volume.  
  
DISKPART>
```

FORMAT FS=NTFS LABEL=32 QUICK

Obviously, the final stage, we want to put a new partition on the volume
